

2020 Virtual International  
Blaise User Conference

# 2020 IBUC dream location...

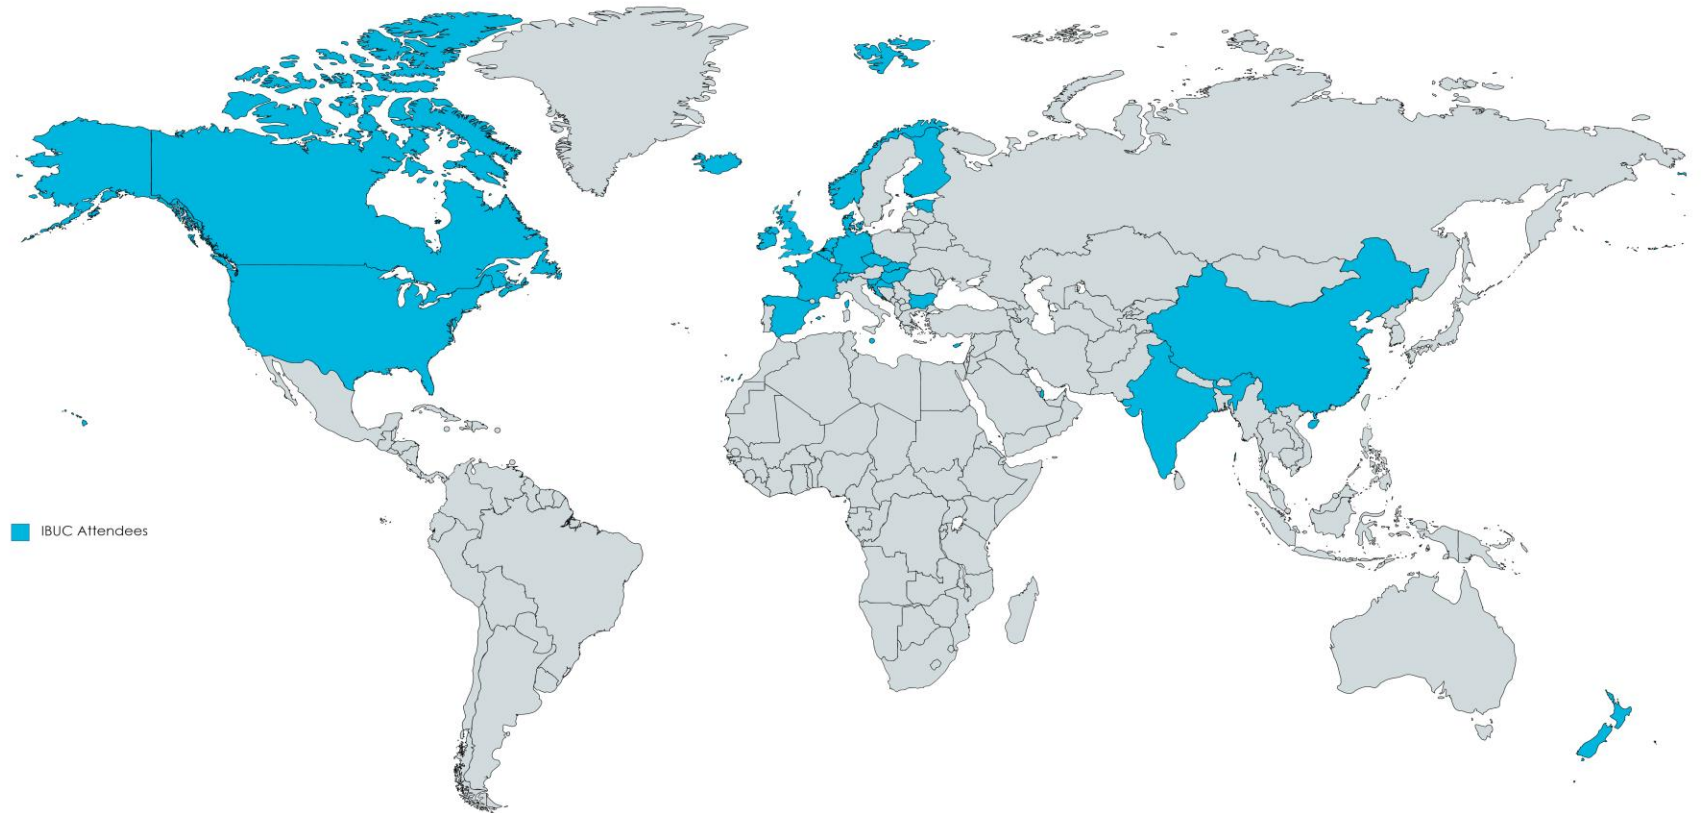

# Now, we are here...

# 2020 Virtual IBUC – Worldwide Conference

- 250+ people have registered for this conference (the biggest!)
- 27 Countries
- 41 Organizations
- 38 Presenters

# 2020 Virtual IBUC Program

- In the program, we have 22 presentations in which users will share their experiences in both Blaise 4 and Blaise 5
- We also have 4 Blaise training sessions in which the Blaise team will share all the new features developed in the Blaise system
- All the presentations will be recorded, and you have a chance to access them after the conference
- (Sorry, no “Tony Award” during this year’s virtual conference)

# Since this is our first virtual conference...

## Reminders:

- ✓ As an attendee, your video and audio will be muted during the conference
- ✓ Please use the **Q&A to type your questions**. The host will select questions to ask the presenter if there is time allowed. You can **give questions** of others **a thumbs up**. This will **increase** the **chance of** this question being **answered live**. Otherwise, your questions will be answered by email after the conference.
- ✓ Presenters for each session will have their video and audio turned on before the session starts by the host. The presenter will receive a 1-minute warning from me to end their presentation (15 minutes/presentation.)

# Extra...

- ❖ There will be a Social Event on Friday where all attendees are welcome to join & talk in a Zoom meeting. The meeting link is in your virtual goodie bag
- ❖ We will send out a post-conference survey after the conference. We hope you can give us as much feedback as you can.

# **Enjoy a great conference!!!**
